

THE TOWN OF
Landover Hills

Office of
Mayor and Town Council
6904 Taylor Street
Landover Hills, Maryland 20784
773-6401

March 6, 1996

The Honorable Frank Casula
Mayor
City of Laurel
8103 Sandy Spring Road
Laurel, Maryland 20707

Dear Mr. Frank Casula:

It is with great pleasure that I write this letter of recommendation for Mr. Lee Botts and AB Consultants. Mr. Botts has provided engineering services to the Town for at least twelve (12) years. Projects have been varied. They have included roadway and storm drainage design and construction supervision; preparation of construction proposal documentation; review and analysis of construction contracts and associated documents; preparing right-of-way and easement plats and descriptions; as well as building and recreational facilities planning. Many of our projects have been funded with Community Development Block Grant monies, therefore, Mr. Botts has been required to adhere to federal guidelines and ensure that all construction contractors meet or exceed these guidelines. Work performed has been consistently superior.

The quality of the work is enhanced by the personal attention the firm affords. Mr. Botts or the project engineer is always available to answer questions. They take a personal interest in keeping elected officials informed. Mr. Botts and members of his company make presentations at Town Council meetings. Occasionally they make presentations at special meetings convened solely to review project needs.

Mr. Botts and AB Consultants have demonstrated quality work at reasonable costs and therefore, have consistently been selected by the Landover Hills Mayor and Town Council to provide engineering services.

Sincerely,

Patricia A. McCants
Town Manager
