

# PRINCE GEORGE'S COUNTY GOVERNMENT

Department of Public Works and Transportation  
Office of Engineering and Project Management

July 12, 1994

Mr. Amrish Patel, P.E.  
President  
AB Consultants, Inc.  
14333 Laurel-Bowie Road, Suite 108  
Laurel, Maryland 20708

Re: Letter of Reference

Dear Mr. Patel:

It was a pleasure to see you again in our office on June 30, 1994, and I was thrilled to learn that you have established an engineering and surveying firm in Prince George's County, Maryland. I am well familiar with your work track record and have little doubt that you will be able to achieve a successful business based on your work experience and outstanding reputation as an engineer.

I am pleased to provide you with this letter of reference, and would gladly recommend your firm to perform engineering services. Your past performance has demonstrated your high degree of technical skills and abilities in the engineering field.

My experience with you on the Contee Road II project involved the rehabilitation of Contee Road from the railroad west of U.S. Route 1 to Van Dusen Road. The work you performed included design services for establishing horizontal and vertical alignments and controls, storm drainage, sediment control, maintenance of traffic, construction estimates, and specifications. The most significant task was the hydrologic and hydraulic analysis of the existing flood plain and the design of the drainage improvements required to convey the drainage water across both Contee Road and U.S. Route 1. These improvements entailed an extensive storm water management design which provided for the removal and upgraded replacement of the small box culvert under Contee Road. The design was performed in a very satisfactory and timely manner, and provided feasible and cost effective solutions for the benefit of the Prince George's County Department of Public Works & Transportation.

Again, I congratulate you on your new position as principal and owner of AB Consultants, Inc. and wish you well in your future business endeavors.

Very Truly Yours

Michael O. Brown  
Project Manager  
Highways & Bridges Division
